City of Fort Atkinson
Fort Fleet Watch

Fleet Watch is a program designed to increase emergency service's effectiveness through the cooperation of alert public service employees in the City of Fort Atkinson. Public service professionals assigned to other responsibilities have become trained witnesses through training received by the Fort Atkinson Police Department's Community Policing Team. These added "eyes and ears" spread out through our active city will notify the Fort Atkinson Police Communications Center of potential crimes, suspicious situations or missing children or adults.

Public Service professionals spread throughout the city will also be notified through a Fort Fleet Watch "Reversal" if the Police need to locate a lost child, adult or serious suspect on the loose. Armed with this information, these municipal employees will focus their attention on this community safety priority.

All participating vehicles will be marked with a "Fort Fleet Watch" sticker. This sticker will have a deterrent effect on drivers violating traffic laws. It will establish the vehicle as a "safe haven" for children and our community as a whole. It will also inform the public that the operator of the Fort Fleet Watch vehicle is trained and able to request emergency assistance.

If you have any questions regarding Fort Fleet Watch please contact the Fort Atkinson Police Department Community Policing Team at 920-563-7777.
