The Fort Atkinson Police Department is committed to being a part of the community, not the police department that stands over it. Our Team of employees work hard to be involved and supportive to our community as they do the same for us in return. Our agency is committed to youth mentorship and being a driving force to support and influence literacy is one way we work toward that goal.

Come visit our Little Free Library located on the South East corner of our agency property. It is always stocked with books for both Children and Adults.
