Contact us for more information

This hands-on course provides training on a full spectrum of defensive actions including quick evacuation of the building, hiding in rooms, barricading doors and as a last resort, restraining or incapacitating the suspect to protect students, coworkers or facility guests until law enforcement officers arrive to stabilize the situation. These actions are often collectively referred to as the "Run, Hide Fight" strategy. The goal of this hands-on training is to encourage staff to "experience" a limited amount of stress related to possible dangerous encounters they might face in their work environment, and to pre-plan their emergency strategies using the information and training given.

This course was originally developed here in Jefferson County to increase school safety. We have expanded the scope over the past 4 years to include schools, churches, businesses and municipal buildings here in Fort Atkinson. Our goal is to increase overall community safety and to empower our citizens to react in the best way possible based on the situation they face. Knowing your options and acting is key.

Run, Hide and/or Fight!

Responding to an Angry Adult, Employing Active Countermeasures, Reacting to an Active Shooter, and Hiding-Barricading or Preparing to Fight Back
